

**Michael Freisleben**

*Chief Engineer Case IH Magnum and New Holland T8 Agricultural Tractors*

Mike Freisleben is the chief engineer for the Case IH Magnum and New Holland T8 agricultural tractor product line at CNH Industrial. Based in Oak Brook, IL, he is responsible for platform new product development, vehicle engineering, R&D budget and engineering methods.

Prior to his appointment in 2021, Mr. Freisleben held a number of roles at CNH Industrial over 12 years. He was the global manager for Ag tractor, planter, seeder and tillage hydraulic systems and started with CNH Industrial in 2012 as the manager of the hydraulic component and standards design team. Prior to his time at CNH, Mr. Freisleben worked in product development of off-highway and automotive hydraulic valves at HUSCO International.
